Subject: Wu Update

CLASSIFICATION: UNCLASSIFIED

OSD-ISA-AP PLEASE FORWARD TO JS J5 APAC (ATTN: CDR DURKIN)

To ALCOM:

1. CINC'S final IPR went well yesterday.

2. For Joint Staff/OSD. Still need your feedback on discussion topics from my 27 June email (see below). Please provide guidance NLT 3 July.

- Recognizing we are still drafting CY98 contact program for submission and that it often takes the Chinese some time to warm to new ideas, this counterpart visit presents the CINC a unique opportunity to broach new ideas for engagement. Request approval to discuss, in general concepts, the following proposals for CY98 and beyond:

-- Proposed SOF medical or HADR exchange, see USCINCPAC 091700Z JUN 97 for details

-- Desires for cooperation/engagement in areas of Counter-drug, HADR, engineering

-- ALCOM desires for interaction on Search and Rescue (a previously approved topic but new for ALCOM program)

-- Will stress that discussions on these points are subject to approval of both governments but we think it would be a mistake to not at least broach these topics during the visit.

-- Unless otherwise directed, we will assume it's OK to discuss previously approved events for re-engagement in CY98 and beyond

3. Getting on short final for this one. Thanks to all for help you provided in development. Please pass on to COL E. that I especially benefited from his couple of days out here during early planning.

Don't forget latest itinerary below.
